We are committed to providing the best patient care available.

As a healthcare industry representative, you are an integral part of this process, and it is a priority of ours to ensure that we, and our vendors, are compliant with hospital policy and Joint Commission standards.

In order to help with this credentialing process, we have joined Reptrax's nationwide community. Reptrax provides an Internet-based service that allows our reps and healthcare departments to navigate our compliance goals in an efficient, easy, and comprehensive manner.

Reptrax is the industry standard for vendor credentialing. By using Reptrax, we are one of the thousands of facilities immediately available to you if you have satisfied your outstanding requirements.

It is a requirement that all reps successfully register and satisfy outstanding requirements through www.reptrax.com.

Simple Process

If you do not have a Reptrax account, create one using the brochure instructions.

Once you have completed your registration and submitted any required credential documents, Reptrax will review and process your submissions. Please note that all of our reps must be part of Reptrax. If you fail to comply with this requirement, you will not be permitted inside our facilities.

For questions regarding the registration and credentialing process, please call Reptrax at 214-222-7484, Option 1.

Nothing. Nada. Zilch.

Reptrax doesn't believe reps should pay for something they don't need. That's why Reptrax works with healthcare facilities to create fair and reasonable credentialing requirements based on a rep's role within a facility.

If a rep isn't required to submit credential requirements for review and storage, the membership is free. Reps who are required to submit credentials purchase an annual premium membership, which is valid at all Reptrax facilities. Individuals will not pay a separate fee for each facility they visit.

Below is a chart showing what features each membership offers.
